#### BIKE FIT PRICING LIST:

- OPTIMAL FRAME DETERMINATION WITH GURU DFU: **€ 120**
- BIKE FIT ON SECOND BIKE (SAME SESSION AS FIRST): **€ 130**

#### PRE-RACE OR IN-SEASON CHECK UP BIKE FITTING:

After a bike fit we recommend a check-up after some kilometers on the bike and also if you changed one component on your bike this could affect the whole position check-up, component or frame change: **€ 130**

- POSITION AND PEDALING TECHNIQUE EVALUATION ON THE ROAD: **€ 200**

We use specific protocols (built on the athlete's needs) and dedicated technology to evaluate pedaling technique and position stability during real road efforts.

- AERO BIKE FITTING - IMPROVE YOUR AERODYNAMICS WITH OUR VIRTUAL WIND TUNNEL: **€ 130**

With our aero tool we work on your frontal area to improve your aero performance relative to real race effort.

- AERO TRAINING SESSION - AERO COACHING SESSION (30'): **€ 50**

Once the optimal position has been determined you can train at race pace and check if you can hold your position effectively with a direct visual feedback.

- WIND TUNNEL AERO SESSION - AERO TESTING SESSION IN WIND TUNNEL:

PLEASE CONTACT US FOR A QUOTATION BASED ON YOUR NEEDS.

Thanks to a solid collaboration with a wind tunnel you can test components or optimal position on the bike with a high grade of precision with our guidance.
